P.S. The photo that appeared most often in the israeli papers shows me sitting on the floor amid piles of mail-art holding up your pieces, and grinning. I'll try to get that to you.

DANIV.1.1.1

How would it be possible for travelers to meet somewhere in the big time space? Maybe lost under a 2.

"The guide to the guide" Who is not who's also. The same - Hee's right I like it. How about the scroll unrolls? Joyous Lights

I've just arrived home in brooklyn after the seven weeks in Ein-Hod and a quick one in Amsterdam. The "Scroll Unrolled" beautifully - a catalogue will reach you eventually... I loved the nude man on turtle's back, & was, perforce, enticed by the woman. So, we shall probably meet as travellers just like this - beneath the rainbow, drawn by lush life. Ah! S'amuse - my muse - the altering ego - the swallowing glimpse of the self perching and singing swoons of lyrics. Draw for me & eye for you - swift cycle, vortex and loom - interweave and dart - arrows of the soul-style -

much love,
d-d

Somewhere under a hat
your muse s'amuse à strip
in your mirror an enigmatic
message of the "soul style"
O.K.? To you the ball —
Jingles the scroll unrolls

beautifully. Mine enrolls, but
you certainly won't remember.
Which man, which turtle &
enticing woman are you talking
about? Happy days to you & love
